Goodwin Trials Are Speediest In History of Bowie

Father and Two Sons Face
Sentences In the
Penitentiary.

GETS DEATH PENALTY

Father Pleads Guilty To
Hog Theft, Must Serve
Four Years.

BOSTON, Tex., March 13.—(P)—Ten days ago Lloyd Elliott went in search for some hogs which were stolen from his farm. Today he is dead. And aged father and two sons face sentences ranging from four years to death by electrocution in the penitentiary for the hog theft and the murder of Elliott, which grew out of it.

Dave Goodwin, aged 40, and his 21-year-old brother Bud were sentenced to death and twenty years imprisonment respectively in two of the speediest trials in the history of Bowie county. Young Goodwin was convicted as an accomplice in the slaying. Collie Goodwin, 63, father of the two men, pleaded guilty to the hog theft, and must serve four years in the pen.

Elliott, aged 23, youthful hog camp operator, was found shot and his body lying in the shallow waters of Sulphur river after more than 300 persons had combed the country side. Immediately after finding the body, the scene led off toward the Goodwin home. The three men were indicted immediately and one week later were brought to trial and convicted in a court house which was surrounded by officers from four counties.

8 Stills Seized By Dry Raiders

1500 Gallons of Whisky
Taken by Federals In
Oklahoma Drives.

IDABEL, Okla., March 13.—Eight stills with a total of 1500 gallons of whisky were destroyed in a series of raids made Wednesday by federal officers in the vicinity of Honeatown, 35 miles north of Idabel.

Officers late Wednesday had arrested three men, J. W. German, Bob Ashford and another, whose name was not learned. The unidentified man was arrested when the federal men found a barrel of liquor in his wagon, which they said he was driving hurriedly down the road leading away from one of the stills.

Dog Sleeps On His Negro Owner's Grave

WINONA, Miss., March 13.—(P)—That mysterious affinity between a man and his dog makes Spot a one-man dog, even though his master is dead.

Dave Brack was a negro meat cutter here. He loved dogs and fed scores of them. Dave died the last day of last year. Dogs of all kinds that knew Dave followed his casket to the graveyard, and white spectators say they howled during the services.

Spot, had been Dave's dog for 15 years; white residents here said, and led the procession.

The other dogs came back to town with the crowd, but Spot stayed at the grave. He slept there that night—and the next.

And he still sleeps there, regardless of rain or cold. White friends of Dave feed him and love him for his fidelity.

Arkansas Republican Convention Called

LITTLE ROCK, March 13.—(P)—A. J. Russell, chairman of the state republican committee, Wednesday issued a call for a state convention of the party here August 16 at which a state ticket will be nominated and a central committee selected.

In the call, the county committees were directed to call county conventions on or before August 1 for the purpose of selecting delegates to the state convention.

The basis of the state convention is one delegate and one alternate for each county and one additional delegate and alternate for every 275 votes or major fraction thereof cast for President Hoover.

NEW WINKLE IN BANDITRY

ST. LOUIS, March 13.—Two negroes strode up to the entrance of a store. One walked in. The other waited on the outside hauled a brick through the large show case window. The owner started after him. The one in the store obtained \$35 from the cash drawer and fled.

AS TAFT RECEIVED HIS LAST FAREWELL

Photo Copyright, 1930, NEA Service, Inc. Transmitted by Telephoto.

While thousands stood in a spring rain to watch, the flag-draped casket containing the body of former President William Howard Taft was taken on an artillery caisson to the capitol building in Washington to lie in state before burial in Arlington cemetery. This picture shows the caisson as it proceeded on its journey to the capitol.

To Finish Plans for Spelling Bee

County Teachers Will
Meet With Supt. Austin Saturday.

Plans for the Hope and Hempstead county spelling bee, in which The Star is offering cash prizes to the three best students in the grade school, will be completed at a meeting of county teachers in the office of County Supt. E. E. Austin, Hope city hall, at 10 o'clock Saturday morning.

The task of selecting local champions for more than 60 city and county schools will begin early next week, winding up in a mammoth spelling bee at Hope city hall Saturday morning, March 22.

The Star's prizes will be awarded at this meeting on the judging of impartial witnesses.

Between now and the 23d The Star expects to publish the name of every school champion who will enter the county tournament. The only requirement established by the school authorities is that the competitors come from the higher grades of the grammar schools, and that no school put up a champion unless he or she has spelled down all comers before carrying the school's colors into the county tourney.

Frank May Goes Home Tomorrow

County Clerk Recovered
of Operation—On Duty
Late Next Week.

Frank May, county and probate clerk who was brought to Julia Chester hospital here two weeks ago to have his appendix removed, will leave the hospital Thursday for his home in Washington.

Mr. May has received hundreds of visitors while in the hospital. Although very ill the first few days after his operation, he made a rapid recovery, and is leaving the hospital on schedule time.

He expects to be in his office at the courthouse, ready to resume his duties, the middle of next week.

Grunz Returned To Little Rock

Will Face Charges of For-
gery and Embezzle-
ment, Is Report.

LITTLE ROCK, March 13.—(P)—Facing charges of forgery and also accused of embezzeling several thousand dollars from the Continental Casualty company, of which he was state agent, Albert Grunz, aged 22, was returned here today in custody by a deputy sheriff of New Orleans where he was arrested several days ago.

Additional work on records of his books is still pending, and no charges have been filed, although officers said he was involved in the embezzeling of a large sum.

Beer Favoritism Seen In Customs Seizures

DETROIT, March 13.—A robin's warble in February or early March may be a harbinger of spring to some, but to federal customs guards along the Detroit river a sure sign of the breaking up of winter is the increase in the illegal traffic in beer.

Recent rum hauls have shown more beer being run across the river from Canada than whisky. This, the old-timers say, is a sure indication that American thirsts are calling for larger rather bourbon and rye.

Testimony Heard In \$50,000 Suit

L. K. Persons, Garland
City Planter On Trial
For Murder.

TEXARKANA, March 13.—Testimony in the \$50,000 damage suit of Mrs. Mattie Simmons against L. K. Persons, planter and stockraiser of Garland City, which has been on trial in Miller Circuit Court since Monday, was completed shortly before noon yesterday after which the jury was taken to view the scene where Mrs. Simmons' husband was fatally wounded by Persons last June, about 16 miles east of here.

Mrs. Simmons is suing for the death of her husband, L. H. Simmons, former chief of police of Texarkana, Ark., but who was a tick eradication officer at the time of the shooting. Persons was the last defense witness. He was on the stand more than an hour. He denied he had shot at Simmons until after Simmons had fired at him but admitted he had used abusive language toward the range riders, who were driving off some of his cattle.

George Partain Is Under Arrest

Prosecuting Attorney Cy-
pert Would Bring Him
to Trial.

LITTLE ROCK, March 13.—(P)—Following the arrest in Memphis last night, George Partain charged with attempting to bribe a member of the state legislature last year, prosecuting attorney A. Boyd Cypert, of Pulaski county, announced today he would make every effort to bring him to trial.

If Partain's extradition to Arkansas is granted, he would seek a new indictment by the grand jury.

Partain was indicted along with Reece Caudle, Arkansas railroad commissioner who also attempted to bribe a member of the state legislature.

Stagg Urges Retention of the 18th Amendment

WASHINGTON, March 13.—(P)—Alonso Stagg, who's big maroon eleven of the Chicago University has wrote many chapters in football history, today urged retention of the 18th amendment before the House Judiciary committee saying that his observance of the youth of America was better off under the prohibition law than it had been before. Stagg took the stand after a group of women had testified in support of the dry law.

Bulletins

LITTLE ROCK, March 13.—(P)—A corrupt practice pledge was filed in the office of secretary of state today by Steve Carrigan, of Hope, as a candidate in the Democratic nomination of August primaries for prosecuting attorney for the eighth judicial district. Mr. Carrigan seeks re-election to the office.

BERLIN, March 13.—(P)—President Von Hindenburg this afternoon signed the Young plan in which Germany agrees to pay the United States a reparation payment. The passage of the Young plan and its connected legislation by the reichstag marked one of the most momentous decisions as yet taken by the young German republic's law-makers.

WASHINGTON, March 13.—(P)—Action on a proposal to send to conference the first deficiency bill passed by the senate yesterday and carrying an amendment of \$100,000,000 for the federal farm board, was deferred today in the house when representative Garner, democratic leader of Texas, said the appropriations committee should get information from the farm board.

JACKSON, Miss., March 13.—(P)—Carl Marshall, attorney, was ordered today to be taken into custody and be presented before the Mississippi house of representatives for failure to answer certain charges when questioned by the legislative committee investigating a disposition of mysterious payment for the abandonment of \$10,000,000 against the Warren Bros. a road concern.

"Life-for-Pint" Victim Released In Michigan

LANSING, Mich., March 13.—(P)—Mrs. Elita Mae Miller, a victim of Michigan's former "life-for-liquor" law, was free Thursday for the first time in 14 months.

The 50-year-old mother and housewife, who began a life sentence in the Detroit House of Correction following her conviction here December 31, 1926, on a fourth liquor felony, returned to her home and her husband. She was released on \$2,500 bond pending a new trial granted by the Supreme Court.

Little Rock Woman Is Given Judgment

Supreme Court Affirms
Judgment of \$48,500
for Mrs. Bushey.

LITTLE ROCK, March 13.—(P)—Attorney for Mrs. Effie Bushey, of Little Rock, announced today that the United States Supreme court yesterday by rejecting a writ of certiorari in effect, affirmed judgment of \$48,500 in favor of Mrs. Bushey against the Missouri Pacific railroad for the death of her husband who was killed in a train wreck near McGeehe, Ark., in 1926. This award was said to be the largest personal damage given to a person in Arkansas.

George M. Bushey was a locomotive engineer, and was killed when three cars left the track including the locomotive, and overturned.

Solo Over 1902 Wireless, First

Little Rock Lady Consid-
ered First Woman
Broadcaster

LITTLE ROCK, March 13.—(P)—When radio was wireless, a little girl played a harmonica before crude apparatus. It was heard a mile away as crude receiving equipment.

That was 28 years ago. Today the little girl is Mrs. J. H. White of Little Rock, considered to be the "first woman" broadcaster. The crude equipment was designed by her father, Nathan Stubblefield, at Murray, Ky., a pioneer radio investigator.

Mrs. White was stationed in a field a mile away from her father's farm house laboratory. As she played the harmonica silence like that for pin dropping prevailed at the receiving end. Faint, but clearly, the music was received.

This experiment, one of a number conducted by Stubblefield in 1902, has led his home town of Murray to feel that he should be credited with the "invention of radio." It plans to erect a monument in his honor March 28, the second anniversary of his death.

Stubblefield was considerably elated over his early experiments, and friends assisted him in obtaining a patent. Later he conducted demonstrations in Pennsylvania and New York and a stock company, was formed to manufacture his device.

Things did not seem to develop as the inventor had hoped, and he went back home to spend the rest of his life.

Farmer Kills Self In Lot Near Home

Ill Health Believed Cause
of Suicide of Waldo
Man.

MAGNOLIA, March 13.—R. L. Callicott, aged about 45, farmer, was found dead in the stock lot, of his home in the Lamarine community, five miles north of Waldo, Wednesday. Coroner J. E. Cooney of Magnolia gave a verdict of suicide. No cause for the act was given, except that Callicott had been in failing health for the last two years.

Callicott's body showed two gunshot wounds, one through the chest just above the heart, and the other in the abdomen. Members of the family said that Callicott started to take his shotgun to the lot when he went to feed the stock, claiming that he was going to shoot an owl. His wife persuaded him that it was too dark to shoot. Later he came back and got the gun. A little later a shot was heard and about three minutes later another.

When he did not return, a search was started and a son found him dead in a lot across the road. Evidence indicated that the first shot was fired under an apple tree, 50 feet from where the second shot was fired. To fire the second shot it appeared that he placed the butt of the gun against a fence and discharged it.

Callicott is survived by his widow, five children and a brother.

Car of Soy Beans Arrives Here For Sale Next Monday

Will Furnish Seed for
Hempstead County
Dairy Feed Program

MO. PAC. TO EXHIBIT
Railroad Is Sending Soy
Bean Special for Pro-
gram Monday.

The first co-operative carload of soy bean seed in the history of Hempstead county arrived in Hope this morning—to be distributed to local farmers next Monday, which is Soy Bean day for the county.

The stage is all set for the observance of Soy Bean day. Definite arrangements have been made for the appearance of the Missouri Pacific Soy Bean Exhibit train which will arrive early Monday morning. The train will be open for inspection from 10:00 a. m. until 1:00 p. m. A number of the leading agriculturists of the state will be at the exhibit train to explain the various educational exhibits and give advice on the growing of this important crop.

A mass meeting of farmers and business men of this section of the state will be held at 2 p. m. at the city hall where various phases of soy bean culture and use will be discussed.

One of the most important features of the program will be the arrival and distribution of a full car load of soy beans for planting purposes. Farmers who buy their beans at the car on this date will be given the advantage of wholesale prices. It is important that everyone interested in planting soy beans this season attend this meeting and secure his seed from this co-operative car.

Every bushel of these soy beans should be kept in Hempstead county, it is to continue the dairy development program. However, many orders are being received from farmers within a radius of 40-miles of Hope. Farmers desiring to purchase soy beans for planting should do so as early as possible Monday and participate in the savings through this cooperative effort.

Mena Waterworks Bond Issue Passes

\$40,000 To Be Spent In
Laying Additional
Water Mains.

MENA, March 13.—Mena property owners Wednesday approved a proposed \$40,000 bond issue for the enlargement and improvement of the municipal waterworks by a vote of 255 to 25.

The \$40,000 project is for the laying of more than four miles of additional water mains in sections of the city not served by water and fire protection, the drilling of an additional well, installation of a new pump, relieving indebtedness caused by the drilling last year of a well and for numerous other minor improvements.

The earnings of the water system, already profitable, is expected to cover the interest and annual payments in the bond issue, thereby preventing additional tax on property owners. Provision have been made in the city ordinance to empower the commissioners to carry out the improvement plans.

Blevins Man Has Tomato Record

Gained A Profit of Nearly
\$200 From One
Acre.

Lynn L. Smith, of Hope, has an article entitled, "Tomatoes Make \$200 an Acre," in the March issue of Capper's Farmer, a national farm magazine published at Topeka, Kansas, by Senator Arthur Capper.

In this article, Mr. Smith reports that Jim Brown, of Blevins, Arkansas, gained a profit of nearly \$200 from one acre of tomatoes in 1929. The author quotes from Mr. Brown as follows: "Since this was my first experience in growing tomatoes I did not use enough fertilizer on them, with the result that my crop was a little short and the quality was not exactly what it would have been had I used a heavier application."

According to Mr. Smith, the trucking industry is in Hempstead county to stay. He says, "the cash which can be made on a few acres of truck supplies the money to make the cotton crop and keep the family supplied with necessities."

Walker Testifies In Murder Trial

They Laugh Last
In Nelson's Case

MILWAUKEE, Wis., March 13.—Nels Nelson, shoes in hand, was climbing through a window when two policemen appeared and accused him of being a burglar.

Nels laughed long and loud. "The joke's on you," he chuckled. "I live here."

The police knocked and a woman appeared.

"Does this man live here?" one of them queried.

"Never saw him before," the woman said.

The police laughed longer and louder.

Then Nels looked at the house number. It was 2516. He lived at 2512.

Today the police still laughed and Nels moaned in a jail, charged with being drunk and disorderly.

Truancy Work Is Urged by Kiwanis

Number of 15-Year-Olds
Not In School, Club
Discloses.

Local Kiwanians went on record, at their noon meeting Thursday in support of the movement undertaken by the Hope Chamber of Commerce to increase the acreage of soy bean planting in Hempstead county.

Monday, March 17, has been set aside as Soy Bean day, when the local chamber, with the assistance of County Agent Lynn Smith, is attempting to sell a solid carload of soy bean seed at cost to the farmers in this section. The club promised to support the movement both individually and collectively. It was pointed out that soy beans made cows produce more milk, fertilized the land upon which it is grown, and was a splendid feed for stock.

An investigation conducted by Kiwanian J. L. Hartin, revealed a number of children under 15 years of age in Hope who are not regularly attending school. Although this is in violation of the truancy law, there is no truant officer at present. The Kiwanis educational committee, composed of Will Atkins, Joe Floyd and the Rev. Frances A. Buddin, was asked to confer with school and police authorities, in an effort to attempt to see that every child of school age in Hope is in school, and securing the benefits of an education.

Curtis Cannon, publisher of the Hope Morning News, and candidate for lieutenant-governor, was a guest of the club. He made a short talk which was splendidly received.

Talbot Field, another guest of the club, pointed out the good effects of building the new Hempstead County hospital at this time, if it is to be constructed soon. He indicated that now, in the beginning of an apparently prosperous year, labor was more plentiful, and greater good could accrue to the community, if work could be started on this project soon.

Aged Blevins Man Died Last Night

Henry G. Austin Suc-
cumbs After Illness of
Several Days.

Henry G. Austin, aged 74, one of Blevins oldest citizens, died about 11:30 last night after an illness of several days. He was formerly an operator of several sawmills, and at one time was engaged in the hardware business at Blevins. He was highly respected and widely known in southwest Arkansas.

Funeral services will be held this afternoon, and burial will take place in the Blevins cemetery.

Mr. Austin is survived by his widow, three daughters, two who are residents of Little Rock and one who lives at Blevins, one son, engaged in work at Hope.

J. P. Womack Will Speak In Nashville

J. P. Womack, president of Henderson State college will speak at the First Baptist church of Nashville, Ark., Sunday morning, he announced today. Mr. Womack also will visit the schools at Nashville, Dierks, Murfreesboro and Delight while in that part of the state.

Traces Movements From December 5 Until Body Found

Denies On Witness Stand
That He Killed Mrs.
Lena Walsh

SULLIVAN ON STAND
Defense Announces A Sur-
prise Witness From
Memphis.

HARRISBURG, Ark., March 13.—(P)—The scene of slaying of a woman who the state insists was that of Mrs. Lena Walsh Campbell, Walsh, is still being made a point of contention today by the defense in the trial of Willis Walker, salesman of Wynne, on trial here for the slaying of Mrs. Walsh.

Jim Mat Griffin, Harrisburg automobile salesman, called to the witness stand today for the defense, testified that C. T. Sullivan, deputy sheriff, told him that tracks made by automobile tires indicated that a car came to the scene of murder from the south. The tirelock where the body of Mrs. Walsh was found is 250 yards north of the Crittenden county line, Crittenden being south of Poinsett county. Sullivan was called to the stand again and denied making the statement.

The defense announced today that they expected a surprise witness from Memphis to testify before Walker, called to the stand, who will be the last witness. Expected to testify, a large crowd of spectators were on hand today, and the doors of the court room were opened at 9 o'clock.

HARRISBURG, March 13.—(P)—Willis Walker, Wynne, salesman, denied on the witness stand in Crittenden court here that he killed Mrs. Lena Walsh Campbell, for whose slaying he is on trial charged with murder, and before court recessed at noon had traced his movements since December 5 when he met Mrs. Walsh in Little Rock to December 11, the day that two farmers discovered her mutilated body in a clump of bushes near Marked Tree.

Program Is Ready for Visiting Day

Good Crowd Expected At
Experiment Farm
Friday.

The program for visiting day at the State Fruit and Truck Experiment Farm here Friday is complete, and Director George W. Ware expects a representative crowd from four or five counties, as well as the usual visitors from Hope.

The morning will be spent studying the various experiments of the Station Farm and will include discussions on:

1. Irish and sweet potato production—Sam Knox, Extension Marketing Specialist, and E. A. Hodson, Agriculturalist, Missouri Pacific Railroad.
2. Peach and Grape Management—Professor J. R. Coper and Guy A. Stockell, University of Arkansas.
3. Cover Crop and Rotation—Professor Martin Nelson, University of Arkansas.
4. Hot Bed and Cold Fram Management—G. W. Ware, University of Arkansas, Fruit and Truck Branch Experiment Station.

At noon free barbecue sandwiches and coffee will be served by W. Homer Figg, Hope Chamber of Commerce, and County Superintendent E. E. Austin. Visitors will be given an opportunity at this time to visit the Station's buildings and equipment.

A short speaking program will be held immediately after dinner, including talks by Miss Connie J. Bon-slogel, Mr. O. L. McMurray and Miss Ella Posey, all of the University Extension Service.

The afternoon program will be devoted to separate demonstrations for men and women. In one section the ladies will hear discussed Landscape Gardening, Poultry Management and Interior Arrangement of the Home, by Prof. J. B. Cooper, Miss Sue Marshall and Miss Martha Bucher. At the same time in another section, the men will be given demonstrations in Mixing and applying Fertilizer for various crops. Spraying Fruit Trees for disease and insect control and Soy Bean Planting and Management, Lynn Smith, J. H. Stallings, L. C. Rogers, D. J. Burleson and A. G. Thomas Agricultural Specialists, will be in charge of the men's program.

The newspaper is an institution developed by modern civilization to present the news of the day, to foster commerce and industry, to widely circulate advertisements, and to furnish that check upon government which no constitution has ever been able to provide.—Col. McCormick.

The Star's Platform

CITY

Apply the resources of the municipal power plant to develop the industrial and social resources of Hope.
More city pavement in 1936, and improved sanitary conditions in the alleys and business back-yards.
Support the Chamber of Commerce.

COUNTY

A county highway program providing for the construction of a minimum amount of all-weather road each year, to gradually reduce the dirt road mileage.
Political and economic support for every scientific agricultural program which offers practical benefits to Hempstead county's greatest industry.

Encourage farmer organizations, believing that co-operative effort is practical in the country as it is in town.

STATE

Continued progress on the state highway program.
Fairness tax reform, and a more efficient government through the budget system of expenditures.
Free Arkansas from the cattle tick.

The Hospital Drive

HOPE'S outstanding quality—the ability of her citizens to co-operate on community ventures—is no where better demonstrated than in the record which has been written the last three years by the Hope and Hempstead County Hospital association.

Yesterday's edition of The Star carried the announcement of the association's annual campaign for memberships, which begins next Tuesday; and a statement of the financial condition of Julia Chester Hospital. It was a statement which ought to make Hope and Hempstead county citizens quick to respond to the annual call of charity.

To make a public venture self-sustaining, is a notable achievement; but to be able, with the voluntary gifts of the city and county, to boast that no charity case ever is turned away from the hospital's doors—that is extraordinary.

No mere association of officers and by-laws can make such a thing possible. It is only achieved by the unselfish services of the women of Hope who have given their personal attention to the running of this institution.

The community spirit of Hope has built up a hospital where a dollar given to charity is turned to a dollar's worth of good—and on such a record, the people of the city and county ought to gladly respond next week.

The Why of Why

TIME, the news magazine, has an interesting article on the food value of whey, in its issue of March 10. The article, which takes added interest from the fact that it deals with the head of the Kraft-Phenix Cheese corporation, says in part:

"To James Louis Kraft, cheese magnate, went news both profitable and philanthropic last week. His Kraft-Phenix Cheese corporation used to dump away yearly thousands of gallons of whey (The watery part of milk left after the curds are removed) or return it to the farmers for hog wash. That whey contains most of the milk minerals. To make money from this whey Mr. Kraft some time ago gave Rutgers University funds for research. Rutgers fellows developed a powdered whey which farmers use to keep parasites from their fowls. A year ago Kraft developed *Velveeta*, a mixture of cheese and whey powder, which can be digested in two hours, while cheese requires four hours for digestion. They must have some further commercial value, decided Mr. Kraft. So he asked Rutgers to go deeper into its nutritional values. Dr. Lloyd Kendrick Riggs directed this research.

"The research indicates that whey is good for both rickets and tuberculosis. The minerals it contains are those needed for building bones and for the repair of tuberculosis lesions. For those conditions whole milk is always prescribed. But the bulk of milk required often annoys the patients. Dr. Riggs, who has experimented only on animals and not yet on humans, finds that a small amount of powdered whey plus food containing the antirachitic vitamin D (evaporated from the watery cheese waste) is as curative as a quart or more of whole milk."

Public Is Air Shy

ALTHOUGH the United States government is spending about 80 million dollars a year in aid of commercial flying, the aviation industry is in serious difficulties, according to Postmaster General Brown.

Passenger air lines carried a paying load of 16 to 40 per cent of their capacity last year, and operating losses have been so great says Mr. Brown, that "the very life of the passenger transport industry is in the balance."

He further points out that if the air lines should collapse through lack of public support the millions which the government has contributed, as well as much of the money invested by the public, would be lost.

The trouble appears to be that air lines have been extended too rapidly. Only a small percentage of the public will as yet trust themselves to the airplane for long flights. Every airplane disaster which is spread across the front pages of newspapers tends to make people afraid of this form of transportation.

The public generally will become "air-minded" only when convinced that airlines assure safety as well as speed.

Fisherman's Luck

Daily WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON—A while ago, when Mr. Joseph R. Grundy came into the Senate by appointment from the governor of Pennsylvania, his enemies guessed that they had him where they wanted him and that instead of wielding his former great power as king of the tariff lobby he would be just an insignificant senator of no special potency.

But probably nothing of the sort ever occurred to Mr. Grundy, and if what are supposed to be Senator Grundy's dreams actually come true he will be blossoming out one of these days as the most important of politicians, stepping into the quite warm shoes of the late Boies Penrose.

Grundy Is Doing Well

Even in the Senate, where the coalition forces which have been making such hash of the tariff bill, Senator Grundy, a manufacturer of worsted yarns, is sitting pretty insofar as his own pet schedules are concerned. Grundy has had his fingers on the wool schedule ever since the House began to think of the tariff bill and now that the Senate has approved or raised the high rates of the House his victory is assured.

Senator Grundy himself did not vote on the items of the wool schedules, but enough "backward" progressives came to his aid to put the stiff duties over. It was after considerable consultation with Senator Grundy that Senator Thomas of Idaho introduced his amendment making the woolen rates apply to all goods containing as much as 15 per cent wool. The

effect of this was to drive sky-high the rates on cheap fabrics containing hardly any wool, but seven western progressive Republicans voted for it.

Previously the Senate had deluged Grundy and other worsted manufacturers with favors by raising the duty on wool rags, thereby boosting the raw material costs to their competitors, the carded woolen manufacturers, and creating a market for their own wastes by making the duty on foreign rags and wastes prohibitive. It also boosted both specific and ad valorem duties on wool fabrics to "cover" the increase on raw wool. When the net results are figured up Senator Grundy has much for which to be thankful.

Meanwhile, Grundy is obviously out to dominate Pennsylvania politics completely and it is pointed out that if he succeeds he may well become a virtual dictator in the Republican party as well. His political enemies say that if he elects himself as senator and the rest of his state ticket in addition he will be able to control Pennsylvania's 79 delegates and use them against President Hoover at the 1932 convention. They even go so far as to say that he aims to "get" Hoover.

Although Grundy's dissatisfaction with Hoover is well known, the idea that he is after Hoover's scalp, probably is the bunk. Hardly anyone supposes that Hoover will become so badly bogged in the next two years that he can be denied re-nomination. But that Grundy can become a second Penrose and dictate to party and president alike is quite within the realm of possibility, especially if the present brand of White House politics isn't improved.

BARBS

The New York police department is to publish a magazine. No doubt it will feature some travel stories by Mayor Walker.

Americanism: Razing the big fight and then devouring all the newspaper writeups.

The household page gives a receipt for "flapper pie." We suppose it will be conspicuous for its crust. Or may-

be we should expect a fine frosting.

Today's simile: As sure of his job as a French premier.

Those two Chicago racketeers who invaded a hospital to shoot a racketeer confined their apparently had lots of faith in the adage: "While there's life there's hope."

Dense Dorothy thinks "Boop-boop-a-doop" is an Indian chief.

Montana's game department has stocked with trout three high snow created lakes which never previously contained fish.

Menu For the Family

BY SISTER MARY
NEA Service Writer

It never is wise to eat out or proportion to one's need, either on the side of insufficiency or excess, but too few women give the same thought and attention to their own diet that they give to that of their families.

The average woman who does all her own work, with the exception of the washing and heavy cleaning, for a family of four, needs plenty of good wholesome food. Ash constituents and vitamins as well as a goodly number of calories must be supplied if she is to keep her body and nerves functioning smoothly.

The "fuel" requirement for an active woman is from 2500 to 3000 calories a day. This means that she will eat a breakfast of fruit, cereal, eggs or their equivalent, toast or muffins. Coffee has fuel value only as sugar and cream are added.

Not-Too-Light Luncheon
Luncheon must be more than a cup of tea and a cracker. A cream soup or some other hot dish or a hearty salad with bread and butter, fruit of some sort and a cookie or piece of cake or any simple dessert are required to furnish sufficient calories.

A nourishing dinner of meat, two vegetables, salad, bread and butter and dessert is as necessary for the "lady of the house" as it

is for "the man" and the children. The tendency to take on extra fat apparently is greater in women than in men. If this condition is watched, as soon as excess fat begins to appear, rigorous "reducing" will not be necessary. A little less of all types, with a minimum of sugar and sweets, usually will prove effective and healthful. This "safe and sane" diet must be persisted in if the fat is controlled.

The too thin woman must persistently eat food in excess of her caloric requirement if she would gain in weight. Few women who are underweight realize that to be more than ten per cent under weight for one's height usually means lessened physical efficiency.

Mid-morning and mid-afternoon lunches make it easy to increase the amount eaten. A glass of milk taken with each meal will add 500 calories to her regular diet. Each extra pat of butter used adds 100 calories. Cream and olive oil also increase the fuel intake.

Foods rich in iron should be used liberally. Since most women like salads of green vegetables and fruits, it's comparatively easy for them to provide adequate minerals and vitamins in their diet.

The thin woman should increase her ordinary caloric requirement from 500 to 700 calories, while the fat woman should reduce her caloric from 700 to 1000 calories below her ordinary requirement.

News of Other Days
From the Files of the Star

25 YEARS AGO

Yancy Williams was down from Washington Thursday morning, M.L. Moore, of Prescott, was in town Wednesday.

J. P. Tribble, of Idabel, Ind. Ter., spent Wednesday in this city. Hon. W. V. Thomkins, the prominent Prescott lawyer, was in the city Thursday.

Luther Smith was down from Ozon Thursday looking after a shipment

of cotton.

10 YEARS AGO

Miss Jessie McCorkle left yesterday for a few days visit to relatives and friends in Texarkana.

Mrs. Ellis McGuire, of Yazoo, Miss., is here for a visit to her sister, Mrs. H. T. Eggleston.

Mr. and Mrs. James D. Montgomery had as a guest yesterday, his brother, Lee Montgomery, of Lewisville.

Mrs. Lewis Carr has as a guest, her sister, Mrs. Fred Bimel, of Portland, Ind., who is en route home from Florida, where she has been spending the winter.

A. A. Gordon, well known citizen and business man of Prescott, was in the city this morning.

IN THE HEMPSTEAD CHANCERY COURT

U. A. Gentry, et al., Plaintiffs,

vs.

S. W. Chambliss, et al., Defendants.

is the worker, the worker of wonder, in the blue and gold of dawn? heart of me whispers that over and under moment are rapture and ecstasy. Yesterday all earth seemed barren and sterile; have for the wind, Nature's leaves were mute; every wide slope waves in un-tilled beryl. And still have the lips of a smile. Is the worker, the worker of wonder, the hand that has en-abled the sod, brought life out of death, cleft the life asunder?—the spirit of spring, yea, the spirit of God.—Selected.

S. J. Murphy entertained yesterday, celebrating the fourth anniversary of her little sister, Sara Jane. Fancy caps and bonnet dolls were given as favors, there was a beautiful birthday adorned with four pink tapers in green holders. The pleasing color of green and pink was carried in the decorations and refresh-ments. Those present were Ophelia Hinton, Wanda Mae Zisner, Joy Billy Ramsey, June and Norma Duke, Frances Harrell, Janie Russell, Rosalind Hall, Rose Henderson, Phyllis Williams, John Saunders, Martha Ann Alex-ander, J. W. Patterson, Bettie Ruth and Nancy Jo Coleman, Virginia O'Neal, Carolyn and Bettie Lou Clark, John Warren and Alfred Brannan, Dorothy Mae Rhodes, Margaret Bush.

lyn Miller at the Saenger Theatre today boasts more than the usual quota of comedians.

Four of the best-known funny men of Hollywood are included in the cast of this all-dialogue picture, which is entirely in color. They are Joe E. Brown, famous stage and screen laugh-provoker, T. Roy Barnes, who has many comedy roles to his credit, Ford Sterling, who was one of the original Keystone Kops and Jack Duffy, star of innumerable two-reel side-splitters.

"Sally" is adapted from the famous musical comedy in which Miss Miller broke all theatrical boxoffice records for over three years, and is her first motion picture. Pert Kelton, Alexander Gray, Maude Turner Gordon, E. J. Ratcliffe, Jack Duffy and many others are included in the all-star cast.

Child's Home Training Key To School Attitude

WASHINGTON March 13.—(AP)—Homes are often responsible for the

aversion which some children feel toward school and its demands, in the opinion Mrs. A. H. Reeves of Philadelphia, president of the International Federation of Home and School.

"Children are threatened at home with visits to the doctor and dentist if they don't behave," says Mrs. Reeves. "A fear of physical examinations in the school thus grows in them."

"Many children, too, are forced in-

A PAGE of SPORTS NEWS

Sparklers Play Game At Stamps

Game Saturday Night Will Mark Close of Season For Team.

HOPE, Ark., March 13.—The Sparklers, who will have played 25 contests, to date they have lost only three games, although they have met four of the best sextets in the United States and many of the best in this and other states.

The game Saturday night likely will mark the end of the season for the Sparklers, who will have played 25 contests. To date they have lost only three games, although they have met four of the best sextets in the United States and many of the best in this and other states.

Funds for the Sparklers to go to the Wichita tournament continue to come in, and it now seems that by the time to leave the necessary finance will be available. Malvern and Arkadelphia each has given about \$200.

At the present rate of increase it is estimated the government's Pribilof Island seal herd will number 3,000,000 seals within 17 years. There are approximately 800,000 now.

HOOKS AND SLIDES

by William Braucher

Meeting the Boy Bandit

AMONG the interesting people you meet in the newspaper game is an enterprising young man from dear old Albion—Mr. James J. Johnston. Mr. Johnston, who is supposed to furnish the intellect for the Ferocious Fainter, Phil (the Souffle) Scott, has been in Miami these last few weeks in the interest of an obscure heavyweight match between his fellow and Jack (the Scowler) Sharkey. It was there, during the preliminary gestures of the affair of arms, that your correspondent was thrilled to make the acquaintance of the "Boy Bandit."

It was at a meeting of the Miami Boxing Commission, in Miami's city hall, an ornate structure topped by a large and comfortable jati, that we had the pleasure of observing the Bandit at the business of intellectual gymnastics.

What Heresy Is This!

MR. LOUIS MACREYNOLDS, chairman, had just announced to a conference of managers, Referee Louis Magnolia and scriveners that, strange to say, the referee would be in sole charge of the fight. This was a shock and a surprise to all present, who had imagined the thing was going to be directed and staged in person by the Bandit himself. Reporters and audience looked at Mr. MacReynolds in astonishment.

It was then that the Bandit made his gesture. Caesar could have done no worse. Seizing his hat, Mr. Johnston started to walk out. "I'm through," quoth he, and there was indignation in his voice.

Wonderful!

MOST of the sports writers present could not stifle their sigh of relief. But perhaps the Bandit was only kidding, after all. For at the very door he paused to learn the effect of his departure.

"The decision is final," said Mr. MacReynolds. "But I will instruct the referee to go as far as possible if one of the boxers is in distress, before calling a halt."

That was the way it finally worked out. Mr. Johnston really didn't walk away after all, the fight was saved for Miami and all's well with the world.

Mr. Johnston, after a time, became so agreeable that he placed his arm on the shoulder of Mr. Magnolia and broke into serious

DID YOU KNOW THAT—

LEON SEE says that Primo Carnera is a manager's dream of Paradise. "He doesn't know how hard he can hit," declares See. "He never has admitted to me that anybody ever really hurt him. Above all, he never has to be told the same thing twice."

They call Sol (Happy) Furth, New York U. track captain, "Dick Merriwell."

He finishes off his training by reading any Merriwell book he can buy, borrow or steal.

The day he went up to Schenectady to eclipse an indoor record in the low hurdles he had a Merriwell book in his traveling bag.

The White Sox like Van Daele stadium, San Antonio, because the infield is soft and springy and easy on the dogs.

Donie Bush likes it because of the absence of cold winds that make most training spots bad.

consultation, the white Johnny Buckley, who does the intellectual business for the Scowling Sailor, looked on and wondered just where he stood.

Mr. Johnston executes the arm-on-the-shoulder act with infinitely more grace than that coup he performs with the hat and the indignation. He is one of the best little arm-on-the-shoulder racketeers in the business.

McGovern Changed Him

THE Bandit came to America from England and once had every intention in the world of becoming a fighter himself. He won some matches as a bantam, earning several times the princely sum of \$15. One night he was offered \$25 for a bout, but before taking it, James wanted to see his man. The man happened to be Terry McGovern, so Mr. Johnston refused. Terry knocked out the man who finally did go on with him in one round.

"That helped me to make up my mind that the mental side of the fight game was the better department to follow," says the Bandit.

The Bandit has been doing very well in the mental side, thank you, even if he didn't quite win the intellectual joust with the Miami Boxing Commission.

Court Is Held In Dance Hall

Musicians' Platform Too Cold So Judge Sits Near Stove.

SALIDA, Colo., March 12.—A little platform at one end of a large room where a Saturday night fiddler entertained the village dancers became

a judicial bench here.

The seat of Chaffee county was moved here recently from Buena Vista by a vote of the citizens, but they forgot to provide housing space for the county offices.

For the last 50 years district court had met in Buena Vista where a room in the courthouse had been set aside for it. Since the official removal of the county seat, the district court was forced to meet in Salida.

The only available place in Salida was the old dance hall, scene of many miner's celebrations in the old rush days.

The court attendants assembled opened up the hall, built a fire in the little stove in one corner and invited his honor, the judge to begin court the judge to begin court session.

Everything was in readiness to begin except the temperature of the room. The judge and jury were unable to assume their customary court places because, if they left the immediate vicinity of the little stove, they were soon numbed by the cold.

After several attempts at taking their places at the platform end of the room, the court officials assumed a standing position around the little heating stove and court was called in session.

Selp-Help School Bunks Students In Pullmans

CARLINVILLE, Ill., March 13.—(AP)—Blackburn college here has been converted into an independent, self-help school by broadcasting two slogans:

If another college will take you, don't come here. If you can pay your way, Blackburn doesn't want you.

Students use old Pullman cars for dormitories at Blackburn, where \$200 is all one needs for a year's board, room and tuition. Far more than 250 boys and girls, the enrollment limit, try to register.

When fire destroyed the school's main building a few years ago, William M. Hudson, Blackburn's president, procured worn-out Pullmans to house the homeless students. Since then student labor has erected several buildings.

"Blackburn is the only school where self-help extends to management and direction of work," Mr. Hudson says. "Students buy the food, cook it, serve it and eat it. They operate a 200-acre farm. Each student must work with his hands to and a half hours each day."

Tournament Here Begins Tomorrow

Many Teams Will Compete For Boys Basketball Title.

Hempstead county boys basketball tournament will start Friday afternoon at the local armory, with approximately fifteen teams from county schools competing for the championship.

After competing in the district 10 basketball tournament, the Hope High Bobcats have turned to track events and will not participate in the contest.

After making a splendid showing in the tournament at Ashdown, the Columbus team is picked to cop the title, although they will meet some strong opposition before the dispute is settled.

Spring Hill and Columbus schools have declared a half holiday tomorrow so that students can attend the

tournament. Other schools are expected to allow those who want to attend the afternoon games to leave soon after the lunch hour.

The list of games arranged by drawing for places has left McCaskill without an opponent for the first game. Fulton will face Rocky Mount; Spring Grove will tackle Grange Hall; Spring Hill will meet the strong Columbus quintet; Guernsey will meet Sweet Home; DeAnn will play Belton, and Blevins will play Washington.

Subsequent games will be arranged between winners until all have been eliminated except one, which will be termed county championship team.

Admission to the games will be 25 cents for each period of play, except Saturday night, when 50 cents admission will be charged. A season ticket may be purchased for \$1.00.

All-Metal "Flying Wing" Shows Speed In Tryouts

BURBANK, Calif., March 13.—(AP)—A new trend in aircraft design is fore-

cast in successful flights of America's first all-metal "flying wing."

An experimental model, without fuselage, the cockpit in the wing, and an engine of "pusher" type, has been given secret tests by the Northrop aircraft corporation.

The odd ship, designed by John K. Northrop and W. K. Jay, has performed at speeds in excess of 100 miles an hour with a 60-horse power motor.

As a result of the tests, engineers predict passenger transports cruising at 160 miles an hour and mail-express planes with high speeds in excess of 200 miles an hour.

Research work covering more than a year, with additional test flights, and a series of wind tunnel experiments, will be undertaken before the ship will be built commercially.

The landing gear is retractable and composed of three wheels, forming a triangle. Front wheels are placed far forward to guard against nosing over and the rear wheel is steerable for ground maneuverability.

Quit chopping cotton—quit wasting seed!

Pay for a new **EVERY**
Shawnee Jr. Planter
out of your savings in labor and seed!

Every practical farmer knows that "chopping" is one of the most expensive operations in making cotton. Now comes the Avery Hill-Drop Planter, which makes "chopping" not only expensive but wasteful, because with the use of this Planter it is to a large extent unnecessary. Planting is positively

50% to 100%
elimination of chopping
50% to 75%
saving in seed—users say!

controlled so that the saving in seed is great. Users also report getting better stands and yields.

You can't afford to plant any other way! Let us give you the names of enthusiastic users who have already paid for their Hill-Drop Planters out of their savings effected.

See in to see the **EVERY** today!

HOPE HARDWARE CO.

"THE SHADOW" which pursues us all!

(John Greenleaf Whittier, 1807-1892)

"Coming events cast their shadows before"

AVOID THAT FUTURE SHADOW*

By refraining from over-indulgence, if you would maintain the modern figure of fashion

Women who prize the modern figure with its subtle, seductive curves—men who would keep that trim, proper form, eat healthfully but not immoderately. Banish excessiveness—eliminate abuses. Be moderate—be moderate in all things, even in smoking. When tempted to excess, when your eyes are bigger than your stomach, reach for a **Lucky Strike** instead. Coming events cast their shadows before. Avoid that future shadow by avoiding over-indulgence if you would maintain the lithe, youthful, modern figure.

Lucky Strike, the finest Cigarette a man ever smoked, made of the finest tobacco—The Cream of the Crop—"IT'S TOASTED." Everyone knows that heat purifies and so "TOASTING" not only removes impurities but adds to the flavor and improves the taste.

"It's toasted"

Your Throat Protection—against irritation—against cough.

*Be Moderate! . . . Don't jeopardize the modern form by drastic diets, harmful reducing girdles, fake reducing tablets or other quack "anti-fat" remedies condemned by the Medical profession! Millions of dollars each year are wasted on these ridiculous and dangerous nostrums. Be Sensible! Be Moderate! We do not represent that smoking **Lucky Strike** Cigarettes will bring modern figures or cause the reduction of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for a **Lucky**" instead, you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.

TUNE IN—The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C.

Wild Deer Seen Along Railroad

Traveling Public Beholds Spectacle As Big Herd Feeds.

GLACIER PARK, Mont., March 13. Although Glacier National Park is closed to tourists throughout the winter months, it is furnishing thrills to thousands of travelers to the extent that the Great Northern Railway has been obliged to slow down its trains so everybody aboard can get a glimpse of the spectacle.

The railway skirts the southern boundary of the Park and Uncle Sam has found it necessary to establish a wild deer feeding ground in the forest near the right of way where about fifty of the animals have taken shelter from the wintry blasts.

This is fed to the deer by forest rangers, and this "Lunch Station" will have to be kept up probably through March and April, when the weather will moderate enough for these wild animal "boarders" to return up the slope of St. Nicholas at the base of which they are now lingering in "the friendly lee" of northern winds.

Alathean Class Has Good Meeting Tuesday

The Alathean class of the First Baptist church, with Mrs. W. A. Bowen as teacher held their regular monthly meeting Tuesday evening at the church annex.

Mrs. J. M. O'Neal presided over the business session, during which Mrs. Bowen was elected first vice president and Miss Lorraine Clifton, assistant secretary. At the conclusion of the business the meeting was turned over to the hostesses, various games and contests were indulged

member of the class was read. The following appeared in the Believe It or Not column: "All members of the Alathean class have pledged themselves to come to Sunday school every Sunday if it is possible this year, to stand by our teacher, to lend a helping hand to our president, who has done everything she could to make this class a help to our church and pastor. And believe it or not, before another March class meeting we, the Alathean class, are going to have a nice new building in which to have our meetings." Just preceding the reading if the paper, Mrs. J. C. Carlton played several selections on the piano. At a late hour a salad plate with tea was served by the hostesses, who for this month were: Mesdames Atkinson, McKinney, Sld Bundy, Alfred Brannan, D. M. Stuart, Hugh Clark, Earl Bowdon, Lulu Green and Miss Vena Moses.

Tests Plant Hardiness

A method of testing the hardiness of plants has been discovered by S. T. Dexter, W. E. Tottingham and L. F. Graber, of the University of Wisconsin. An electrical current is sent through a water extract of the roots of plants exposed to cold. If the solution is a good conductor, the plant is not hardy enough to withstand cold weather. Dexter, Tottingham and Graber are shown here, left to right, mak-

Hempstead Tree

Courtesy Farm & Ranch Native pecan tree, eight years old, in heavy, sour soil on lawn covered by crab grass. It was topped in the spring of 1917, and ring-budded to Schley, at point marked "X", in August, 1927, by Dr. Chas. A. Champ-lin. Hempstead county, Arkansas. Three buds started to grow about April 15, 1928. The picture was taken November 3, 1929, showing two years of new growth, measuring 16 feet above the point where buds were set. The tree stands 12 feet south of Dr. Champ-lin's residence and has had no pruning or special attention, except an application of frozen cement and barnyard fertilizer during the winter of 1929.

SHERWIN-WILLIAMS PAINT HEADQUARTERS

Bring spring into your home with radiant Enameloid colors

Dries rapidly without sacrifice of quality or beauty

Meet spring halfway. Bring its happy colors into your home. Beautify now with S-W Enameloid. This marvelous new enamel has been perfected by Sherwin-Williams—the world's largest paint makers. Dries rapidly without sacrifice of quality or beauty. Brushes easily to a smooth, porcelain-like finish.
